

Renting the Slushie Machine

Please ensure that you take extra care and attention to protect the slushie machine during your rental as it is an extremely fragile piece of equipment.

You must ensure :

- The machine must travel upright in the wooden crate provided. And be upright at all times
- The manual for instructions has been provide and must be followed to ensure the machine is used properly *freeze temperatures are different for alcohol and non alcohol based mixes. Please consult the internet or guide to ensure you have the correct freeze level for your alcohol content.
- The machine is to be rinsed with water on the cleaning cycle after your usage, and have no sticky residue on it. The full clean will be completed by us **please do not attempt to take the machine apart.**
- Do not let the machine barrel get below the minimum fill line
- Do not leave the machine on overnight or unattended

Failure to follow will result in the damage deposit being used to pay for the repair of the machine. Or, the credit card on file will be used to pay for the machine at a value of \$1150
